REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

Please stop thinking of seeing your own names in the cornerstone of a building that has nothing to do with you. The twin towers were savagely destroyed, taking with them the classic New York skyline. I understand that this is the twenty first century and its time to look ahead, but this is too important for greed to get in the way. There is no better way to show the world what we are than to reconstruct the twin towers exactly as they were.

 **Lawrence Grabowski** All Other Americans 7/21/2006

Rebuilding structures on the site will at least prevent leftists from creating some nauseating multicultural agitprop having nothing to do with the historical significance of the place.

 **connie custer** 9/11 Survivors & Families 7/21/2006

i think it is very important to sign this what ever it is to show that we care and that we don't stay on the pass and show we care that there is twin towers but inform the secretary in and on the plans so this does not open again so sign for all the people that died

Build 'em back!
NYC looks "amputated" without them and I miss them terribly!

The Big Apple won't be whole again until the Twin Towers are back in their rightful, beautiful place.

 **Jennifer Yoffe** Metro New Yorkers 7/20/2006

Please rebuild the towers. I lived on 26th street, around the corner from the Armory (where all the families went to find (what they thought were) missing loved ones. I watched the whole thing from my friend's apartment rooftop in Brooklyn that day. Please rebuild those towers. DO SOMETHING ALREADY. It's a shame that they can't get past their differences, stupid politics. Just break ground and get building. Everyone will finally be able to move on from their aching hearts.

 **Fridun Nazaradeh** Citizens of Other Nations 7/20/2006

I loved the time I spent at the design of the towers sites are and is best viewed on full-size monitors.

I would very much like to see the twin towers rebuilt just as they were before the attack. I can't remember what the new design looks like, but I do remember thinking that I didn't care for any of the designs put forth.

 **Carol Morris** All Other Americans 7/18/2006

Bring them back!!

 **Roger Ruscini** All Other Americans 7/18/2006

Build them visually the same and 50% taller, and using current technology, make them stronger than ever, and more magnificent.

Build them bigger!

 **Leslie Jercha** All Other Americans 7/18/2006

A memorial to the dead is appropriate at the site. But the entire site should not be a memorial to death. The terrorists tried to kill our country, but they failed. Nothing would show their failure more than rebuilding the towers again. America is not defeated. Rebuild!

They were unique in many ways.
Whenever I came to New York, I went to the platform on top of tower 2 to enjoy the stunning view.

Please, do not allow terrorists to change New York's skyline at all! Do rebuild the Twin Towers to demonstrate America's will to withstand any cowardly terrorist attack!

 **Paul Shanley** All Other Americans 7/20/2006

I love new designs and symbolic concepts and ideas.

However, even with all the new "tower"s that have come about and are being planned... rebuilding the Twin Towers is by far the most original, symbolic, moving and doing double duty as a devastator of terror, incredible proposal I have yet to hear.

Let's do it. Let's bring back The Twin Towers.

Sincerely and Godspeed,

Paul Sylvester Shanley

They don't have to occupy the same exact places as the original towers, but they **MUST** be rebuilt just as they were. Doing anything else is a victory for those that destroyed them.

America deserves a memorial as tall or taller than the Towers.

Get it done!!!

God Bless America

Rebuilding shows the enemy that the west and the USA are the only innovators, thinkers and builders in the world that are forward moving. All the enemy can do is blow things up and live in the past. So our best solution is to rebuild the same or better than before and show how great our civilization is with our without them.

The replacement plans at present are wishy washy artistic rubbish.

Simple is better – less is more. Such as the Vietnam War memorial. In this case there is nothing more simple than simply rebuilding the towers as they were (maybe a little taller). **The terrorists want to know that they've had some effect. An altered skyline symbolizes their efforts. Rebuilding the towers symbolizes America's ability to defend herself.**

Build it how it needs to be, and how it was. **America does not shrink before anyone, nor should its landmarks.**

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.
