**We don't let terrorists do our urban planning for us.
The Twin Towers were meant to stand forever and they should be rebuilt.**

— Darin Allan / All Other Americans

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried
to replace the Twin Towers and failed.

I think they should re-build. This was the drawcard for me to visit NY years ago. It was a awesome structure and I for one say bring it back as it was. I'd also like to offer my condolences to the families that lost loved ones. This is one thing that really touched me deeply. Not many things have had this type of effect on me in my life let alone yours.

Rebuilding would make better sense than a new building. It becomes a monument, but one that's infinitely better than just another park.

Everytime I see the towers in a movie and know they're gone now, makes it so clear to me that the right thing to do is rebuild them. Anything less is a victory of the 9/11 highjackers.

Mark Halle All Other Americans 5/14/2006

It is indeed possible to not only rebuild the Twin Towers but to alos provide for a Memmorial to all who lost their lives that day. To do anything less is to submit to Terror therby further enabling Terrorists.

Freedom Tower succeeds wildly at stating to the world that, for a moment in time, the United States withered in the face of global terrorism. The prior design, just as unfortunate, was alledgedly ripped off from a Yale architecture student.

There is no soaring spirit in this design, only morbidity and capitulation. The design says we couldn't soar; that we did not have the courage or strength to soar. Rebuild the Twin Towers taller and better than before.

Please rebuild them!!

Brent Strenski All Other Americans 5/11/2006

Personally, I think they should be rebuilt just the way they were (using modern technology) as a matter of principle.

Rick Tan All Other Americans 5/11/2006

Build the new WTC towers similar to the old ones... with one difference... and extra floor.

Ed Hallick Metro New Yorkers 5/11/2006

Everyone seems to forget the shouts in the street for rebuilding the WTC on Sept. 11th. I do, I am absolutely disgusted by this giant surrender tower/ trophy to Al-Qaeda they want to build. They tried to bring it down in 1993, then they succeeded on Sept 11th. and it will forever be a success for terrorism as long as the towers are not rebuilt.

My friend Don DiFranco of WABC-TV would want the Twin Towers rebuilt. He worked on the transmitter for the station and was proud of his accomplishments there.

REBUILD them and make them one floor higher like Donald Trump suggested!

I check news articles often to see if and when the powers that be will come to their senses and rebuild the towers as they were and as they should be to make a statement not only for the New York skyline, but to those throughout the world who would seek to

I am not one to get caught up in "causes" but having seen the accelerating political infighting surrounding the ground zero project and a memorial price tag that has already reached the \$1 billion mark, I am compelled to speak out in the interest of reason and respect. The best memorial to those who perished and the most fitting symbol of a city and a nation standing up in the true tradition of America is to rebuild the World Trade Center complex. Towers up ~ politicians out !

After watching the events during the morning of September 11th, in particular the fall of the Twin Towers, my immediate thought afterwards was to rebuild the towers. I know such a thought was not prudent to the families of the deceased particularly at that time, and perhaps not to some of them now, but I believe it is vital for the people of New York City and for the people of this nation to see the towers rise again... even higher than before!

This shouldn't even be discussed. It should just have been done. The fact that we're even discussing this is sad sign of the times we live in. In any other period of American history, they would have immediately started rebuilding them. I can only hope your efforts are successful. Good luck!

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
