REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

My belief is that the twin towers should be rebuilt to be visually identical to how they were, internally, the structure should be reinforced as a preparation for any further attack, should it happen. I agree that a memorial should be built on the site, but what better memorial than the twin towers, rising out of the ashes to stand tall again!

In the land of the free and home of the brave, where has courage gone to stand-tall against the symbol of defeat we are now living with by not rebuilding the Twin Towers. What better way to demonstrate to the world what our country is made of – only this time build them higher and stronger (along with a 24 hour military station on the top floor – radars and

For almost 3 decades they marked the Manhattan skyline. having them gone doesn't ruin the overwhelming view Manhattan has and the excitement of visiting it, but I really, really wishes they would have stayed there unharmed, so let's try and make perfect replicas of them.

I currently live mere blocks from the Pentagon in Arlington, Virginia. The Pentagon has been rebuilt ahead of schedule and stronger than before. Now the neighborhood is thriving. New York, you can do it too!

I think it's the choice of the people of New York if they want the Twin Towers back, not of the other countries. But I would like to see them back up. Pat

Anything built at Ground Zero, other than the original Twin Towers, is an admission of defeat.

We are better than that. We are Americans. And Americans want the Twin Towers built!

The Twin Towers need to be rebuilt, taller than before. They would be a great capstone to the resurgence of our city, complimenting the new stadiums and other facilities being built around the city.

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
