Jeremy Larson All Other Americans 4/21/2006 Fear is one of the biggest weapons radical extremists used to topple these monuments and symbols of our great country. Fear will also keep them from being rebuilt. Fear not, rebuild. Let the legs of the towers stand in place of all of those we lost.

My cousin Christopher Blackwell, a firefighter out of Rescue 3 was killed on September 11th. I am now in the United States Air Force stationed at RAF Mildenhall. I chose to join and serve in the same service as he once did. His family is very proud!!

I want my Twin Towers back. A strong nation would rebuild the buildings even taller than they were before just as a matter of principle. The rebuilding should have started the minute the rubble was cleared. Rebuild the Twin Towers taller than before

I grew up in Bergen Cnty in view of the NY skyline. I'd like nothing more than to have the towers back. Maybe a little taller, a little modernized, but most of all as a symbol of our resolve against the animals who murdered our friends & families.

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
