REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

The world was robbed of the 21st-century Twin Towers most of us always wanted.

I want to have the twin towers built back up even though I wasn't alive when it happened, but I also think you should have a floor for each hero, and name each floor after them.

Michael Schejbal * Citizens of Other Nations 9/11/2019
We wanna rebuild the World Trade Center, as the World Trade Center, but more safe.

Victor Raymond * Citizens of Other Nations 9/11/2019

I honestly never saw the Twin Towers since I was very young when the tragedy took place, but I sure would love to see them in person.

Israel Ovalle * All Other Americans 8/12/2019
We must build them with 120 stories. The Twin Towers is an American symbol that must be rebuilt. Those who lost their lives, deserve better, a lot better. Larry Silverstein is a disgrace.

Rebuild the Twin Towers!

John Lopez * All Other NY & NJ Residents 7/26/2019
A skyline without a symbol is meaningless, and the freedom tower fails to present that. All it will ever be is a solid reminder of that tragic day. It shows us New Yorkers towards the world that we aren't capable of overcoming such a tragedy and it's a sign of weakness, and that's exactly what we aren't. We are strong and very capable of healing. Bring us the skyline we miss in the bottom of our hearts. Please listen to the people.

Arian Namvar All Other Americans 7/24/2019
I think the original twin towers looked very cool. If we can somehow rebuild the look of the original towers but somehow also make the structural integrity able to withstand an attack of similar proportions, then i'm sure everyone will be happy with the result. I stand with the rebuilding of the towers.

Francisco Forés * Citizens of Other Nations 7/18/2019
No vivo en NY pero quiero realmente que las Torres Gemelas del World Trade Center deban volver.

Translation: I do not live in NY but I really want the World Trade Center Twin Towers to come back.

Max Perez All Other Americans 5/15/2019

The Twin Towers were an Icon of our great nation. They truly showed the power and ingenuity of the American People. Rebuilding the Twin Towers would show the world that we won't be influenced by terrorism! Most people would like to see the towers rebuilt. New York isn't New York without the Twin Towers.

Zaheed Chapman All Other NY & NJ Residents 5/12/2019

Man it's sad to know that a black man (not being racist or pulling the race card here) had tried to rebuild these 2 beautiful buildings and make the area look even better. But none of us peacefully protested at the site to rebuild the twin towers. They were both amazing and still are. Please rebuild both of these towers one day in Manhattan. If we can't, what about the waterfront of Brooklyn or Queens? But as long as it's in Manhattan or right close to it would be nice... I hope they rebuild them one day soon before it's too late (they rebuild WTC 2).

I worked on Greenwich Street just down two blocks from the twin towers. Everyday I would just go to my spot and sit and admire the twin tower marvels. The twin towers should be rebuilt. I would have no problem at all working in newly built twin towers. It is almost an impossibility that any jetliners would ever be hijacked again. First, the passengers on the plane would not let it happen. Second, the cockpit doors are now enforced to withstand mega forces. I despise that new freedom tower. It is ugly and an insult to all. I truly hope new twin towers are built in my lifetime.

Paul Van Buren All Other NY & NJ Residents 5/1/2019

As a native New Yorker, looking at the NYC skyline and not seeing twin towers is a reminder of what happened on 9/11, and a constant reminder of terrorism. They do not need to be built as they once were, but twin towers should be there, in the form of 2 Freedom Towers or whatever seems suitable. Rebuilding such historical buildings is a sign of strength and is a great head start in the right direction of peace and unity.

I, like most people never got to see the World Trade Center before 9/11, I believe we should rebuild the World Trade Center complex similar to what it once

We made the One WTC 6 floors shorter than the twin towers? Why? I don't know. The new twin towers will be 112 stories tall! I think if we wanted to build a symbol of healing we would build a taller building. Right?

I still have hope. Please, do the right thing, whatever influential individual is listening. This is what we want. Believe us.

I was born in 2004 so by that time the towers were already gone. In school however they still had old pictures of the once glorious skyline, and as a young child I always wondered why they took them away.

Needs to be done.

was. The Twins need to be rebuilt so the NYC skyline can look like it used to.

 **Aleksandar Grozdanoski** Citizens of Other Nations 3/27/2019

I'm not sure if this is still valid or not, but I guess that people like me will keep on dreaming. I have always been inspired by the Twin Towers, by their architecture and their beauty – that almost innocent, but immortal beauty, which only simple shapes can have. I used to consider those two buildings the pinnacle of the architecture of our days. An architectural heritage to the world, like the pyramids in Egypt from another era.

I'd love to see the Twin Towers rise again, like a phoenix bird who rises again from its own ashes to defy death and destruction – as a symbol of immortality.

Let the Twin Towers rise again like two phoenix birds who defy destruction, to convey the message of the immortality of our civilization.

I was born 6 Months after 9/11. I kinda missed out on seeing them. I want nothing more but to witness the Twin Towers again. If we don't rebuild them we are letting the terrorists win and we can be defeated. The World has gotten worse as we know it ever since 9/11 happened and the Twin Towers NEED to be restored. Without them, there's no hope. It may take some time but I have faith they will be rebuilt and I will help ensure that happens.

 **Igor Karklin** Citizens of Other Nations 3/3/2019

It would be great for me to visit New York and the twin towers. When they collapsed I was 5 years old. I remember how long these terrible images were shown on TV.

New WTC complex as if from another world. It suits Dubai more than New York. Therefore, I only for the restoration of the twin towers!

 **Cole Slaughenhoup** All Other Americans 3/1/2019

I fully believe the one way to unite the country is to rebuild. I'm all about bringing the twins back and I'll do anything to help.

 **Eli Burck *** Citizens of Other Nations 2/26/2019

I want the return of twin towers ????????❤️

 **Danny Steen** Citizens of Other Nations 2/24/2019

The Twin Towers were the most remarkable icon of New York. The new World Trade Center looks like it's from another world. The new building doesn't fit in comparison with the rest of the city. Give the people what they want. Rebuild the Twin Towers. We will never forget, even the people from other countries.

I was only two years old on the day of 9/11, and believe it or not, I can remember seeing it on tv that day. I had always been in awe at the towers, but it was not until I was in High School I did a report on them. I had to study the whole World Trade Center Complex and that is when I fell in love with the towers. It's so sad how much people overlook about them! They were a city within a city. New York seemed to be a much happier place when they were around. I am so in love with the towers that I visit the St.Louis airport terminal, which was designed by the same architect who designed the towers. Many people say that the terminal has a similar feel to the lobby of the original towers. I was so awe struck by that. We need the towers back!

 **Chancellor Davis *** All Other Americans 2/5/2019

I was born 3 months after 9/11, and I never was never able to witness the beautiful towers that once rose so gallantly above the rest of Lower Manhattan. I am very interested in the Towers, and I would love to see their presence again in a new way. I want to see a similar sight that everyone in this world once saw

when they visited this great country. The towers were proud symbols of our great country. If we can rebuild a similar look that New York once had, we can show the world that our country is still strong. I would love to see two towering twins in the skyline again. If it's possible, please listen to all of those who want to see this become reality.

Yes, I was born in 2001, precisely in February, when they still shone high in the sky. But I was obviously too small to see them, this does not mean to have forgotten them. In fact I've always grown up remembering them and seeing them as an icon of the New York skyline. I know it will seem strange, but it is one of my greatest desires, and I do not think to speak only in my name, that of being able to admire them in person, huge, side by side, built as only the American skyscrapers can be. In a word "impressive". I hope with all my heart and soul that my dream is realized.

I apologize if my English is not one of the best.

 **Sebastian Alzate Amaya *** All Other Americans 2/5/2019

Being born in 2004 I think I can speak to all born after 2001, The twin towers were what made New York New York. Thousands and practically millions of people around the world would come to see the towers. They were what defined us as Americans. It's sad to know that We younger generations where robbed of that majestic sight. Now I look at the freedom tower and feel disappointed. It's sad looking and just not the WORLD TRADE CENTER. Yes it may be taller but how are you gonna compare 1 tower to 2? The freedom tower was built and it just looks sad all the time. A constant stab reminding you of what happened. So please with a desperate cry, do what is right and rebuild the twin towers! Make New York great again!

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
