I think we should rebuild the twin towers, but I'm not too according to the Twin Towers II project I believe that we must rebuild exactly like the originals except that these new towers have to be much safer than before They must have a different interior structure more safer than the originals, they should have more fire stairs than the originals because what matters most is the safety of those working within, and the usable office space isn't the most important Also my new Twin Towers would include a memorial museum on the first floors In my opinion they should also rebuild the other five buildings exactly the same as originals but with more safer and more modern structures, the Austin Tobin square must also be rebuilt I really liked t

This is a subject that's so hard for me to talk about because there's so many people who don't seem to care that if we don't build the twin towers back the terrorists win. I loved the twin towers, and they must be built back. I hope that one day this could become a reality. Those towers represented who America is, but if we don't build them back to me they represent who America was. I'm proudly adding my name to this list, so at least I can say I tried to fight for what is right for the nation. For the people who put this website together, thank you for at least trying to fight for those towers and the people who died in them. I just hope the people who are suppose to represent us will hear our voice and have the courage to do what is right.

James Funchal * Citizens of Other Nations 10/10/2013

Please, rebuild these towers. Let them stand as a blade to deter all those who take up arms against peace.

I will come to America, and I will take up the fight to get these buildings standing as the greatest tribute the world has seen for the second and last time!

To all those who went with the heavens, RIP.

Seth Williams All Other Americans 10/10/2013

REBUILD the iconic symbolism of America exactly like before — but better. Not a stupid "Freedom Tower"... the REAL DEAL. The TWO (2) TWIN TOWERS, no architectural design twist, or "bomb sheltered" base nonsense revealing American vulnerability. Rather, what everyone loved — the straight up and down, vertical beauty the two towers emitted. THAT is American pride, THAT is American Capitalism, that is the healing of the ever so great New York City.

I challenge you friends, rise! Fight for this petition like me and your fellow comrades, brothers and sisters! Spread the word! We WILL make this a reality, a NECESSITY to the American People, the American CAUSE, the American DREAM.

Sophie Wilcox Citizens of Other Nations 10/7/2013

I would love to see the twins back in the NY Skyline. However i think that it is too late as 1 WTC is already completed, unless they build two freedom towers?

Hi there. I love the World Trade Center. I live in The Netherlands but my dream is to live in Manhattan and NY wouldn't be NY if there are no Twin Towers.

The Twin Towers are a symbol for america.
Reabuild this beautiful buildings.

Connor LaJoyce All Other Americans 12/24/2013

I would love to see the towers back, where they stood, not the freedom tower. The terrorists wanted them down and didn't want us to rebuild, and that we aren't means that they won! We need the towers back, maybe not in New York City, but in America, possibly in Chicago, or even where the new 2 and 3 world trade centers are gunna go. Put the towers in those spots.

John D All Other Americans 12/7/2013

I would LOVE to see these towers rebuilt someday in NYC nearby where they originally were. If not in NYC, I would still be happy to see them in another major American city. They were simple, yet symbolic. Symbols should never be taken away or changed in my opinion.

I don't believe that they would cause sadness by being rebuilt. It would prove that we are a strong country. I am sad that they are not there anymore.

Justin Salgado Citizens of Other Nations 11/25/2013

I would want the twin towers to be rebuilt. It would make a lot of people happy and me happy too. It would fix a lot of hearts.

Charlie Coveney Citizens of Other Nations 11/19/2013

The twin towers of New York City. Architecturally flawed but nonetheless beautiful. To have these back in the New York skyline would do the families and friends of the poor 3000 people, so much justice. To put these magnificent buildings back in the sky would be showing that the USA will never forget what happened on that tragic day all those years ago.

Nicholas Yasunaga All Other Americans 11/14/2013

I pledge my support for this dream for New York and America. Why does Osama bin Laden's death matter, if the Twin Towers that he destroyed continue to remain absent in New York's skyline? If the great Pyramids in Ancient Egypt had been destroyed, I'm sure they would have been rebuilt, and we would still admire, and respect them as they are today. When the terrorists destroyed the Twin Towers, it felt like we were sent back to the stone age. Our country will inevitably face many issues, and threats, but we need to face them with pride, not secession. If we can't rebuild the Twin Towers how can we possibly confront the obstacles that confront our nation in the future. Why are the people in charge of ground zero denying the truth from future generations. Rebuild the Towers!

gary bimbo All Other Americans 11/13/2013

We are Americans. We are proud. We are strong. That's why we should rebuild and as an American I think we need both towers and freedom.

We should rebuild A.S.A.P. and build bigger and better and build as close to freedom tower as possible if it is possible to show terrorist that they cant stop us from being strong, and that we don't give up. Then we could say, yeah, they took the towers from us. But, we rebuilt them bigger and better. We even added a third one to remember and honer those who lost their lives that day and to show that the U.S. WONT FORGET, GOD BLESS THE U.S.A.

Alex Gehlken All Other Americans 11/7/2013

I strongly feel that the twin towers should be built exactly how they were before. Just 10 times stronger than before. I think if they did this it shows that the terrorists don't win and apparently they did because

I can't help but get angry every time I watch the news and reporters are drooling over the freedom tower and how our country overcame the 9/11 attacks bigger and better. How 1 skinnier tower replacing 2 majestic powerful towers is considered better is mind boggling to me. The twin towers were 2 for a reason. Now when you look at the lower manhattan skyline and see one tower it just doesn't look right or feel right. The new NYC skyline screams where's my twin?! I was 2 and now I'm 1. I'm incomplete! Replace tower 2 with a twin freedom tower. Give us back Twin towers and make NYC whole again.

Cameron Kruger Citizens of Other Nations 9/17/2013

I <3 skyscrapers, and the Twin Towers were and still are my all time favourite. They were just big shiny rectangles, so they should have been boring, but were so elegant, progressive and stylish instead. I agree with Trump's idea to build two slightly taller Twins with larger, sexier windows.

TTA Note: We need to point out that although the "Twin Towers II" plan is attributed to Donald Trump it was not Mr. Trump's creation. The designer, Ken Gardner, had done work for him in the past, so when he saw "Twin Towers II" being introduced on Fox and MSNBC in May of 2005, he got on the phone to Gardner and offered to showcase it in Trump Tower — where he held a press conference and thousands of people filed through over the following weeks to see it.

Johan Dysholm All Other Americans 9/16/2013

I was three when the towers where destroyed. I don't remember much of them, but I know they where among one of the five most recognisable American landmarks. When my dad came here from Sweden he wanted to drive a pick up truck, and work at the Twin Towers. It seems like America has fallen apart since their destruction with the NSA, torture, and the war in Afghanistan. Rebuilding them will not fix America, but it will start the process.

I was 7 when that happened on September, 11. It was a real tragedy, horror. But we all know New York, the best city to go to, like it was, with this special architecture of WTC, Empire State, Chrysler and so on. Those new buildings with the new look just can't fit in New York, and they are ugly to be honest. New York is not New York without his buildings, rebuild the old WTC.

It's simple, we have never backed down from any challenge, may it be at war or peace. We have fought a race to space, we fight for equal rights, we fight for the freedoms of other nations. So should we fight to take back that what was taken? Simply, yes.

What's happening on the site is deplorable. The lies multiply every day. The latest claim is that Zero WTC is taller than the twin towers. Not if you remove Police Commissioner Kelly's 200 foot tall Pedestal of Fear. And not if you don't count the HVAC facilities mounted, not in the basement underground, but high up in the building. Not if you don't count the broadcast spire.

the Manhattan skyline will never look the same and as good as it did before.

I am a New Yorker and I think the new Freedom Tower is very ugly. It is nothing at all like the original Twin Towers. Why weren't the original Twin Towers rebuilt? This Freedom Tower is so ugly and will not even have an outdoor observation deck. And if they had to build it, why not build 2 Freedom Towers the same size? The new buildings are so ugly, it is just awful. Shame on the city for selecting these buildings.

I am one of many who had never got to see the twin towers. It would be an honor to all us Americans if they rebuild the twin towers. It would mean the world to all of us to have the New York skyline back to the way it was. Don't you think we deserve this for all that were lost on that day show the terrorists that we still stand strong and we aren't scared of nobody? I think this is what America needs to be back on top once again. Thank you for your time.

At the very least, a twin freedom tower should go up. Until there is a twin towers in the NYC skyline America will not have truly healed. Build the twin towers and dedicate them to all that lost their lives that horrible day.

I always thought that the twin towers were beautiful ever since they reached for the stars in the 70's. I remember going to the sears tower as a teenager and thinking "wow, this is amazing. one day i need to go to the twin towers". that day will never come for me. I remember one day i saw the concord at jfk and thought "so beautiful! one day i will see the curvature of the earth in that". sadly i will never be able to buy a ticket to make that dream come true either. I wish they would have rebuilt the twin towers. I wish the concord was never retired. dreams are all that i have. and at least the iconic twin towers were part of them & at this website i happy to see i am not alone. I see no shame for them to grace our skies. Cincinnati j

 **Andre Silveira** Citizens of Other Nations 9/8/2013

Iâ€™ve seen the WTC when I was very young, on a trip to NY City back in the 90â€™s. I remember the Twin Towers very well. The â€œTop of the Worldâ€ was by far, the most amazing observation deck in the world, and the Manhattan skyline with the Twinsâ€\wellâ€ that was just THE greatest and THE most powerful symbol of America. I still canâ€™t understand why the US didnâ€™t rebuild the Towers just like they were, only stronger. Itâ€™s not about a skyscraper. Itâ€™s about a symbol. And when a symbol of your country is destroyed like that, thereâ€™s only one way to go: bring those responsible to justice, remember the victims on a timeless memorial, and REBUILD your symbol back. Replace the Twins for any other building itâ€™s just not right.

 **Jesse Hirshon *** All Other NY & NJ Residents 9/6/2013

Honestly, i think that its a complete disgrace to america. we should have rebuilt the Twin Towers to show those terrorists that we are a strong nation, and that we cannot be taken down. The government didnt help us in our time of need, and those terrorists destroyed our country's greatest iconic symbol and took our loved ones away. Never forget 9/11 and long live the Twin Towers!

While One World Trade Centre's design is beautiful, to me it will never ever replace the iconic twin block designs of the original tower. One of the biggest regrets in my life is not visiting the observatory of the original twin towers the last time I visited NY way back in 1999 while I was still a kid. For people of my age and the generations before me, I believe there will always be something missing in our heart when we see the skyline of NY today, and compare it to that of yesteryears. Come on, America, you can do better than that. Capturing and killing the man that was responsible for September 11 is one thing, but restoring one of your most symbolic icons is another, and you are nowhere near there yet!

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
