The world was robbed of the 21st-century Twin Towers most of us always wanted.

What a first class cause. I have thought that rebuilding the twin towers is the only outcome to this terrible event that could possibly be pursued ever since 9/12. Best of luck!		
Darin Allan	All Other Americans	5/2/2006
We don't let terrorists do our urban planning for us. The twin towers were meant to stand forever and they should be rebuilt.

Rebuilding hte towers as they stood, or a close faximile of extremely higher structural rigidity has been my desire since the fall. The symbolic image of seeing the towers again is a powerful thing and would show that attack can be overcome.		

This website is not as scalable as newer sites are and is best viewed on full-size monitors.

I saw the towers that morning, before they were hit, as I drove the turnpike North on my way to work. I saw the first one fall as I was driving South on my way home to be with my family. I will never forget the anger and sorrow I felt at that moment. Build them better and stronger and UP YOURS OSAMA!

9/11 was the 1st time I was glad that my father & mother were no longer alive. I cannot imagine what people who lived through the Depression & World War II would have thought. However, it would be a greater torture to see that we no longer have the can do spirit & guts to rebuild what had been stolen from us. This is the 1st time in US history that we have been intimidated. This is the true victory for the terrorists. To no rebuild is a blight on our national psyche. Losing is un-American.

As a child I remember visiting the Towers right after it's opening ceromony along with my Dad. I served the military twenty years, shipped out from Fort Hamilton Army Base. Please rebuild.

It would be a great INJUSTICE not to re-build the Twin Towers. The towers should be rebuilt to honor those who perished and to become part of the healing process for those who lost loved ones. They should also be rebuilt to show the world no matter what they do to America, they will never break the spirit of being a true American living in the greatest country in the world.

I could not believe that they are going to build something other then the Twin Towers. I am outraged by this plan of the Freedom Tower. Freedom, I thought that the plans would be voted by the people in a truly democrate manner.

I watched a Showtime program by Ben & Tiller's BS last night on Ground Zero. A real eye opener. As always, those who are in charge always seem to nothing what the people want and at the same time get paid for doing nothing at all.

Build 'em bigger, better and taller.

 **Troy Holley** All Other Americans 5/1/2006

It's the best option for everyone. Rebuild the towers to be safer and stronger-bringing back a lot of businesses and jobs, and create some sort of memorial or museum for everyone close by the site of the two towers.

Rebuild!

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
