The world was robbed of the 21st-century Twin Towers most of us always wanted.

I would love to see these towers being built again.

If you, citizens of New York (I knew this wonderful Town at 1995 and I saw WTC,) and all Americans will see again a new and strong and secure Twin Towers but with the same design like the Originals (Twins of them! Is the right word!), these rebuilt give you back and all of us, Americans or not, the power of American People, proof that terrorism NEVER win, and YOU ARE NOT AFFRAID of some radicals and psychotic people (may be inside USA, who knows?). The new WTC give back to NY one of the Principal Symbols that define the City Identity, Like Liberty Statue and the most important: Its THE BETTER HOMAGE YOU CAN GIVE TO ALL THOSE INNOCENT PEOPLE DIED AT 9.11 AND THESE FAMILIES! God Help You Forever!

I am 15 years of age and I was just 4 when these attacks happened. As I have gotten older I have learned a lot about the attacks and the rebuilding process and I can say that what's going on down there is not right. For the past year I have been spreading the word about the real rebuilding at The World Trade Center Site. I strongly believe that Ken Gardner's (Twin Towers II) plan is the real and respectful plan. I want to look back on the site and see what a great job people have done to get this very well executed plan done. When I have kids I want to tell them that yes they were knocked down but I also would tell them that we came back bigger, stronger, taller, and safer. Rebuild don't replace Thank you and God Bless.

I was a child when those horrific events occurred. A mere child. I watched helplessly on the news that evening, watching what looked like to me, rectangles falling down. I had no idea they would have such an impact on me. Today, as an average high schooler, I realize what the towers stood for. Freedom. America. I'm studying to become an architect, and move my business to NYC, my dream city. Don't let me down. Don't let this government take over. No matter how long it takes, we need those symbolic towers back in our lives. As a lover of skyscrapers, I would do anything to have been, if only for a second, at the top of one of those towers. They were amazing. America, step up. We need them back.

i want to see the towers rise again.

Steve Cline * All Other Americans 9/22/2012

I miss the old structure. I was 6 when 9/11 happened and had only seen the twin towers in pictures and videos. As I got older I realized how much of a great memory they brought when I saw the New York skyline with the twin towers in it. Someday I want to climb to the top and show my kids or even grandchildren what I had thought of doing my whole life. Please, even if it takes 40 years, let's make it happen.

Eric Paul * All Other Americans 9/21/2012

Me and my family were going to go to the Twin Towers on 9/11/01 (planned) until we heard about it happening, so we're really upset. We want the twin towers to be rebuilt so that we can finally go there.

I agree that the best way to honor the victims of 9-11, to help heal our hearts, to gain back some pride, and to give the muslim radicals of the world a big "screw you," is to rebuild the twin towers.

Richard Pearson Citizens of Other Nations 9/19/2012

Visiting ny next week, its a real shame not to see the towers, the new tower looks an impressive building but how can you build one where there was once two and call it progress, I'm afraid the politicians and powers that be are playing into the terrorists hand by taking a big step backwards by not going ahead and rebuilding these magnificent symbols of the world-a real shame!

prayer night for does innocent ones and fallen heros that die that day.

My name is Robin Ann Bedell, married name Blankenship. I was born in the Catskills of New York. My father And mother both grew up on Long Island, New York. I cried my eyes out when I saw what happened on 9/11. They should be rebuililt the way they were. Show the world we will always rise to whatever they throw our way. WE WILL STAND TOGETHER AS ONE! THE AMERICANS WILL STAND TOGETHER ALWAYS!!! SO PLEASE PUT ME ON THE LIST TO REBUILD THE TWIN TOWERS THE WAY THEY WERE. THANK YOU.

Rebuild the towers! They were a symbol, not just from New York, but also from America itself! I was 5 years old when i saw the towers go down on tv. Still remember that day. Really love them! They're still in peoples hearts! To rebuild the 2 is the best option for me, not just building one tower!

 **Ned McCann** Citizens of Other Nations 10/19/2012

When I saw a plane hit the twin towers it was a sad moment for me because I knew a lot off people who went to the twin towers before the attack. I would really love them to build the twin towers so who needs the freedom tower when we could build the twin towers back? America with out the twin towers the twin towers standing high up in the sky a better America a better life a better livf for Americans and a better life for everyone so let's beat those terrorists. Let's get our buildings back.

 **caleb keith *** 9/11 Families & Close Friends 10/19/2012

As a loyal American i stand with ALL to REBUILD these awesome symbols of American freedom and enterprise. If Minoru Yamaski was still alive, he would insisted that his towers be rebuilt. Let's do our part and tell congress that this "Freedom Tower" just will NOT DO!!!! I am currently recreating an "N" illuminated scale tribute to these lovely towers for all to enjoy. The site (www.911-project.com) will follow. I will keep everyone posted on the progress on this tribute. "GOD BLESS AMERICA"!!!!

If we build something else, the terrorists win. They will know that they can just do whatever they want , but if we rebuild the twin towers, they'll know that we won't surrender, and that we will come back better, and stronger. Those people who built the twin towers built their hearts out. They worked for years and we have to show them we appreciate that. The twin towers were a very famous landmark of N.Y. And now tourists won't know that we had such beautiful twin towers.

This nation has apperently forgotten the horror of 9-11-2001 and seven days ago most of my classmates said "Why does it matter? We weren't part of it so we shouldn't even have to deal with it." Now I don't know anyone from it and I don't live anywhere near NY but what they don't realize is we are all part of it no matter where we live or who we know! This is AMERICA and we stand UNITED! We are ALL brothers and sisters! It might not be 9-11 today but since then I've been treating everyday as my last and remembering those who have died for us all. And remembering those from 9-11-2001. This is our nation. We should all be thankfull for what we have.

 **Cameron Moylan *** All Other Americans 9/17/2012

Rebuilding the twin towers would be the best thing to do by far. It would represent those Americans that still have common sense. It would also help a great deal in restoring America's image as the greatest country on earth. I would love to see the World Trade Center rebuilt exactly as it was and maybe one story taller. And I think most patriotic Americans would agree.

 **Terry Dodd** All Other Americans 9/17/2012

I thought I was the only one who wanted the towers to stand tall in New York again. It saddens me that our elected officials don't have the courage to do what is right, and that's to listen to most Americans, and build those towers back. Build them bigger and stronger than before. I believe the terrorists have psychologically defeated America. They can always say "look what we did to that country we knocked down those towers and America was too afraid to put them back up." I pray that this plan to rebuild those towers bigger, better, stronger becomes a reality. If we do rebuild them like we should, not only would it show them that we will always stand together, it would also show the world that we are not afraid. We are the United States of America.

 **David O'Connor** Citizens of Other Nations 9/13/2012

hi, i'm from and live in Ireland, i think the twin towers should be rebuilt, i've looked at so many photos of New York before and after 9/11 and it looks much better with the twin towers, the freedom tower/one world trade center is ok but its nowhere near as nice or iconic as the twin towers. i really really hope that they rebuild the twin towers. hopefully someday in the future (within the next 10/15/20 years) i'll be visiting New York and seeing not just the freedom tower/one world trade center at WTC but also the rebuilt twin towers.

 **Seth Patterson *** All Other Americans 9/13/2012

I am a big fan of Twin Towers II. They must be rebuilt or our government has failed us.

 **JAY HORVATH** All Other Americans 9/12/2012

Rebuild the Twin Towers – New York & America are not the same without them.

 **Neil Chirico** All Other NY & NJ Residents 9/12/2012

I grew up in upstate New York and visited those glorious towers while in high school. I remember we went back a second time on our trip because we wanted to go up to the outside viewing deck and the weather had prevented it the day before. So we saw not only the inside observation floor but the outside viewing deck also...a vivid and fond memory from my childhood. I have always wanted to go back and visit those twins and take those tours again as an adult but sadly will never get that chance now. I agree that we should build those towers back again. The Freedom Tower is a nice tribute to America's freedom, but it just doesn't hold a candle to those beautiful and majestic twin towers. I believe we should rebuild them again!

I love skyscrapers and I especially loved the Twin Towers, although I never fully remember them I was only about 5 or 6 when they fell. I would love to see them today as the "Golden Towers" By starting over we just show the people who did this to us that we forget easy. I don't think the towers should be exactly the same maybe a few changes and they would be golden colored but there must be the changes because it would be 9/11 all over again if we just built the same thing and they were to be attacked god forbid..The towers should symbolize the old towers, not some made up towers that look futuristic and have nothing to really do with the twin towers besides the words "world trade center"

I was 14 (soon turning 15) on 9/11, remember it well. The outcome of the attacks still makes me sad, and I'm also sad because of how Ground Zero has been, is and will be treated. The current plan is just foolish and doesn't do justice to anyone. To put it simple, the twin towers were and still are irreplaceable, no matter how many out-of-place replacements under the name World Trade Center are built in New York City. Rebuilding the towers would be an honor to everyone and to the city of NY. And yes, I would love to see those towers at least once in my life.

I think this project here is brave and noble, and by signing this I'm proud to be part of it! I'll support you with the best I can from here.

It would be great to see the towers up again. It was a sad day for America to watch our towers fall and watch all those people pass away. It was a mean a heartless thing that those terrorists did to our country. I will always remember and will never forget what happened. God Bless the ones who were lost and the ones left behind. May the new towers be strong.

 **Daniel Siko *** All Other Americans 9/11/2012

We should rebuild those beautiful towers and bring this great country back on its feet.

 **Crystal Taylor *** All Other NY & NJ Residents 9/11/2012

Quite simply, though the freedom tower is a beautiful building, it does not touch the magnitude of the Twin Towers. How we as a nation can attempt to replace the Twin Towers with a building that cowers in their shadow is a plain travesty.

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
