REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

Put the towers back, we need to rebuild NYC. Build them stronger and taller, to show everyone in other countrys we will not fall, we will not give up that we have faith.

We can't build anything else, what is everyone fighting for if we show them that they won.

Michael Dean * Metro New Yorkers 9/8/2006

Hi I am graphic designer and die hard New Yorker I feel that they should rebuild the towers exactly like it was anthing other than that would be giving into those punks that took them down.Let's face it if somethings gonna happen it will happen.I only hope that we have learned from this so that we may prevent something like this from happening again.As usual the voices that matter are never heard or bush probley would'nt be in office,so all we can do is keep trying because we dont give up

Matt Bosserman All Other Americans 9/8/2006

Rebuilding the towers as they were is the correct decision.

Traci McCormick All Other Americans 9/8/2006

I am just an ordinary American from Texas. But I grew up learning when the horse bucks you off you don't crawl off scared and get on a shetland pony. You get back up and get back on that big horse that bucked you off! Rebuilding anything other than our twin towers is admitting defeat!!

Mark Linek All Other Americans 9/8/2006

I lost friends in the twin towers and my house shook here in alexandria as the plan hit the pentagon. We rebuilt that, we need the towers.

REBUILD THE TOWERS!!!!

Nikki Bennett All Other Americans 9/8/2006

I believe rebuilding the towers would be a good thing.. I just think people are scared to see the towers again because now they also symbolie the pain, loss, and attack.. However I think people need somewhere to shed their tears.

To build anything else isn't right.

There is no other solution that is so perfect, so right, so just and so effective than to rebuild the Twin Towers. My wife & I celebrated our engagement there, at the "Windows on the World" restaurant. I grew up in Hicksville, Long Island, admiring the towers as they were built. I love those buildings. I abhor the animals that tore them down. The only way to exact justice upon these miscreants is to put back, the symbol they can never destroy. Our Twin Towers! God Bless America!!

The magnificent, eternal World Trade Center Twin Towers live forever in all of us as they should live forever in New York City. Individuals come and go; our architecture is for us to determine. The best architecture reflects the best in us. "Rebuild the Pentagon" was the war cry in Washington, D.C. And so the Pentagon was rebuilt, without question, debate, or survivor guilt. Rebuild the Towers and banish the contesting soup egos, visions, and spent money that today is the World Trade Center.

I am British and have never been to NYC, but I believe the towers should be rebuilt bigger than before to show the cowards who did this 5years ago that America & her people are not afraid of anything. And stand for what they believe in, the skyline when you see it now, doesn't look right, it looks all wrong, NY needs her towers back. The terroists can not be allowed to win this! They need showing!

I am putting forward my support for rebuilding the twin towers as oppose to building the Freedom Tower.

I'm from the UK and I feel the twin towers were a powerful symbol of New York City in much the same wasy as the Statue of Liberty is, and as the Golden Gate bridge is to San Francisco, Tower Bridge and Big Ben to London, and the Eiffel Tower to Paris.

Show the terrorists that want to destroy and kill that the free world will stand in defiance against them. Show them that by rebuilding

My name is Susan Leys. I'm not from America but the United Kingdom but the USA holds a close place in my heart and especially New York so I would love to see the Twin towers rebuilt. I alway think of the people and their families who lost therirlives or died themselves.

Always in my thoughts.

Susan

I was introduced to this idea after watching the Penn and Teller episode of their show on showtime about the Ground Zero debacle. I decided to search the internet and see if this was a movement and find myself here. I think this is the best idea for the site. The Towers must be rebuilt! It is the only logical solution.

The idea that we WOULDN'T rebuild the towers makes so sense at all. Rebuilding the towers is the strongest statement of defiance we could make.

 **renia francis** Citizens of Other Nations 9/6/2006
I personally would like to see the twin towers rebuilt and with a memorial garden outside. This landmark must be put back on the map to show the terrorists that all other nations have supported this decision and to let them know they will never win their cowardly war.As a British citizen I am proud and honoured to add my signature to your petition.

not rebuilding the twin towers is the most rediculous thought- these folks making the choice aint new yorkers, they dont really care. let the people's voice be heard. it makes me sick to see the freedom tower and if they make it, i will feel sick everytime i see it, and i should never feel sick looking at my city. god bless america. 319
