We don't let terrorists do our urban planning for us. The Twin Towers were meant to stand forever and they should be rebuilt.

— Darin Allan / All Other Americans

The world was robbed of the 21st-century Twin Towers most of us always wanted.

to replace the Twin Towers and failed.

Terrorism is a war of symbols. That is why the Towers were targeted and that is why they must be rebuilt. Not at the old height, but higher, only thus can we avoid symbolic capitulation – and we must, ere the terrorists smell blood in the water...
-  **Jeff Boly** All Other Americans 3/27/2006
The only proper response to terrorism is to confront it with lethal force. And the only proper response this great nation to the destruction of our sacred symbols is to rebuild them stronger, better, maybe even a little taller!

How wonderful it would be to rebuild the towers, with environmental sensitivity and representatives from all over the world adding to their beauty.

It could not be said better than this petition's intro: Rebuild a similar pair of towers and repair the emasculated NYC and American skyline. Demonstrate our resolve and sentiment. These buildings will always remain in our hearts.

 **Doug Scott** All Other Americans 3/27/2006

I was born in NYC, & my family is from Queens & Brooklyn. I grew up in the suburbs of NJ. I know the pride of NY & what it means to be from there. There is NO better way to demonstrate that than to restore the crown jewel of NYC to its former glory

I cannot even begin to imagine the smiles on the faces of New Yorkers and the sense of optimism and excitement when crane's begin lifting iron and new Twin Towers begin to pierce the skyline replacing their fallen predecessors. Sadly our nation has become entrenched in a quagmire of bureaucracy and political correctness. Rather than building great, there are those making excuses why we can't, shouldn't or that it's basically unnecessary. Had that attitude prevailed 70 years ago Hoover Dam or Mount Rushmore would never have gotten built. The late President John F. Kennedy said it best with the following:

"The American, by nature, is optimistic. He is experimental, an inventor and a builder who builds best when called upon to build greatly."

Where has that spirit gone ?.....

I'd work on the 110th floor. Heck, I might commit a felony to get to work on the 110th floor.

Rebuilding the Twins would send a bold message of defiance to the 9/11 murderers from an aroused America, but NOT rebuilding them means we will let the killers dictate what our skyline will look like for the next hundred years or more. NUTS TO THAT!

the twin towers are a national monument. if our capitol building or the whitehouse would have been attacked and destroyed, there is no doubt that they would have been rebuilt and restored to their former glory. as should the twin towers. those magnif

Put the towers back the way they were, period..

Michael Oakleaf Metro New Yorkers 3/26/2006
We need to rebuild the twin towers on a new footprint. They should be taller, stronger, and better. NYC needs this. Why not make them the tallest in the world? The current redesign proposal is simply too small and not tall enough. Let's do it!

Bjarte Nordvik Citizens of Other Nations 3/26/2006
The only right thing to do is to rebuild the twin towers, at least as high as they were !!

I like the old skyline... Twin Towers was beautifull. I still believe that it will be rebuild. Do you think that something famous like Eiffel tower or London Big Ben should be replaced with some twisted glass structure?

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry
