The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried
to replace the Twin Towers and failed.

Rebuild the Twin Towers please. Perhaps taller than they were before. I need this icon back, it's what each victim of the WTC disaster would have wanted if they were alive.

When I see New York on the t.v. I have a hard time relizeing it's New York without the twin towers. So I know it would do America's hearts a lot of good to have back a piece of what those people tried to take away from us.I think it's time that we show them what america's about and rebuild so they know when you knock us down we come back bigger and stronger.

I Love New York,

Absolutley,rebuild them,yet this time TWICE as high. I was screaming this down the TV around those tragic days of September 2001.

We Brits were totally horrified at the atrocities committed against the USA and around those dark days,this country too had a dark mood to it.

New York is a fantastic place,and to say "Build them twice as high" is not a grand idea.

Manhattan has some of the most expensive land on earth,it therefore makes economic sense and viable. GO FOR IT !

Rebuild the towers, at least as large, even larger than before. Let's send the Islamic goons a unified, national message, loud and clear!

Brad Stueber All Other Americans 11/15/2006

The New York City skyline without our Twin Towers is like and old woman who is missing her front teeth. Every time I see a movie or TV show with the NYC skyline in it, I stop to look to see if I can get one more glimpse of the Twin Towers "before." The post-9/11 programs make me feel empty seeing they are not there. I grieve and still do for the lost souls that day, for their families and friends, for their coworkers who survived. **Rebuild our towers and you will restore more than just two buildings.**

Vinny Nobile All Other Americans 11/15/2006

Rebuilding the trade center as it was will be a Victory for America. The so called Freedom tower is Defeat!!! If the Libs won't let us win in Iraq, at least let us win here at home.

When the towers fell, I wondered how long it would be before bigger and stronger ones were rebuilt. It made me sick when I saw the cowardly replacement for the Twin Towers. My only suggestion is to put a giant "middle finger" one the new towers and make sure it is aimed towards the Middle East. Thank you for your efforts.

Rebuild them as they were!!! They were, in my opinion, one of the most beautiful, austere structures ever built. I dont want a twisty, glassy tower built in place of cold, hard steel. Rebuild I say!!! God Bless!!!

The World Trade Center defined the NYC skyline in the same way the Empire State Building has for decades. We cannot allow the Bin Ladens of the world to change our nation, our cities, our homes.

I think I can speak for alot of Americans when I say that we should rebuild the World Trade Center (Twin Towers). I live In Ohio, and I have never been/ and will never be able to see the original Twin Towers with my own eyes, The only way I can remember them is through pictures and the tragic events of that September day! America needs to do what we do best.. and that's be the greatest. Please, whomever is in charge of this.. Rebuild and Rembrace the Ground Zero site.

The towers should absolutely be rebuilt. It would show America's resolve in the face of terrorism. Building a 78 story Freedom Tower only shows that we now live in fear.

The audacity of anyone to even consider building anything else in that space is sickening. The only thing that should go there should be exact and matching towers of The World Trade Center, exactly as Minoru Yamasaki envisioned, designed and built them.
- ANYTHING ELSE IS LESS. And THAT is NOT acceptable.

Screw these zealots and their jihad. REBUILD OUR TOWERS AS THEY WERE!

New York deserves more than just one Freedom tower. Although rebuilding the exact same towers doesn't seem like a good idea to me, building two freedom towers is what new york needs.

I think one of the best ways to remind the people how great the towers were, is to let them know the story of the WTC Architect, Menuro Yamasaki. His story of struggle and ultimately success is one of the most prominent tales in our great American History and Culture. If people know his life, they will want the WTC back. And they would be proud that such a human being ever was born.

We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.
