REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

I think to not rebuild the Twin Towers is an act of cowardice by our political leaders. I would be first on line to work at the top floors of the buildings.

Rebuilding them as they were sends a clear message, and its time to send that message.

Lois Wayne All Other Americans 9/24/2006

The Twin Towers was integral to the NY skyline. We should build what we want, not let terrorists determine our future.

martin macdonald Citizens of Other Nations 9/24/2006

New York, without the twin towers, is a defeated city.

Johnny F. All Other Americans 9/23/2006

I was 8 on September 11, 2001. I did not know very much at the time. As the years passed, the twin towers kind of grew on me. Now, I've become a really big fan of them and wish that they were still standing... as a huge fan of the once glorious WTCs 1 and 2, rebuild them and not just that, make them higher, stronger, heck, make them the tallest buildings in the world, telling the terrorists " Don't screw with the twin towers."

Let us not bow our heads and build a replacement complex that's only a shadow the size and importance of the original World Trade Center.

I never visited New York, but one thing I was fascinated about were the twin towers! I think the twin towers were like the "trade mark" of New York. When you talked to anyone about New York, the first thing you'd visualize were the twin towers. I really think that the rebuilding is the right thing to do, to honor the victims, the families and the city! Please

Heather Senison Metro New Yorkers 9/21/2006

We should rebuild the towers and put rocket launchers at the top of them so we can shoot down anything comin at them. I was in Manhattan on 9/11 and I can say that even after the years of fear that I have worked through I STILL think we should REBUILD THE TOWERS!!!!!!!

John Mulvaney All Other Americans 9/21/2006

It would be a great thing for our entire country if the same style and size building could be built. I do not like the weird, pointy alternate designs at all. God bless NYC!

Looking forward to get the PATH train at WTC station, in a sunday morning, to go to St. Paul's Presbyterian Church – Newark – like I used to do when living in New York, 1n 1999.

Nothing would be better for the area than rebuilding the towers.

I want the twin towers back- then new york city will be whole again. They should be rebuilt to defy the terrorists.

Brian Hsieh Metro New Yorkers 9/20/2006

I just want to express my support for the rebuilding of the towers. I'm very excited about it.

Ty Warren * All Other Americans 9/20/2006

The Freedom Tower is an absolute disgrace to this country, and to the city of New York. We need to rebuild the towers, bigger, safer, and better. That is what will show the terrorists what America is all about.

Anne Frederick All Other Americans 9/20/2006

I am a Patriot first and an American citizen before I am a member of any political party. The only way back to victory is rebuilding the towers even more magnificent then before, as well as safer architecturally!!! I used to think no one would be brave enough to work in the towers again, but in 5 years I feel differently. I think that better engineering would reassure most people to come back. In honor of the hallowed ground there werein our fellow Americans spirit's were not destroyed but soar

restore the NY skyline, not only for the US, but for the whole world!

the original twin tower buildings were a part of our majestic new york city skyline.they are sorely missed along with all of the heros that died there, too.the world trade center brought all races,colors and creeds together into a community-like working environment.the twin towers represented strength for new york city.build them back with a 100% safer infrastructure!God bless.

if we rebuild the original towers, it will show our resolve as a country.

 **Former WAF Elizabeth Crews** Our Armed Forces & Families 9/21/2006
Please replace the original Towers, but taller...so that we can give a 2 digit salute to the "folks" who will never see 72 virgins, which will let me reclaim my birthdate as a happy occasion and tell the world that the Radio City Rockettes will be a part of the ribbon cutting ceremony to announce that "We're back!!!", with their best high kicks. God bless our President, country, military and patriotic citizens.

We need to rebuild the towers, just as tall, just as big, if not higher.

The terrorists will not win.

God Bless our service men and women, and all those that helped and lost loved ones on that day.

Every since 9/11 I look for our Twin Towers in every movie I see that was filmed in the New York area. I would truly like to see the towers rebuilt exactly the way they were and with improvements if possible. The Towers were beautiful and I truly believe they belonged to all of us. Thank you and may our Lord bless us all.

I agree that it should be re-built to show the world we stand strong.

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld,
