**REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.**

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

The Twin Towers were the iconic signature of New York City- especially for those who live outside NYC. The best way for the city (and the nation) to gain any sort of closure is to rebuild the towers stronger, taller, and safer.

**Alan Aumell** Citizens of Other Nations 5/1/2006  
I'm tired of all the political rhetoric, the blaming, the excuses, the short-sightedness...it was clear right from that horrible day nearly five years ago that the twin towers MUST be rebuilt, BEYOND QUESTION!

I think, I hope, that I speak for millions of non New Yorkers around the globe, and indeed non-Americans (I am Canadian) who have not yet visited New York, and who would be incredibly disheartened to actually see the skyline without the towers.

I still hope to be able to see them!

I fully support this concept and believe that restoring what was sends the strongest message that we will not be influenced by this type of criminal activity.

Say no to the Freedom Tower.

I cannot think of a single thing that would send a better message than to rebuild to the way we were. The Towers were not built to stand as a statement, though they became one in the end. The statement of that site should not be how we were struck down, or how we taunted by making something bigger. The statement of what we do now should be that you cannot change how we live or frighten us into submission.

I truly hope that the organizers would allow the nation to have a voice in this.

Do not falter in the face of terrorism, rebuilding them as they were is the biggest slap in the face to the dastardly terrorists who did it. I fully support rebuilding them the same since they are too iconic to replace in the skyline.

true new yorkers are "in your face". I can think of no better response NY or America could give the terrorists. Rebuild; show them we are NOT afraid. We give terrorists the power by letting them influence our decisions, and showing them we are scared.

There is so much I would like to say. I have been to the Towers many times and it hurts to see old pictures of it now. But firmly think it should be built as it was. Any other landmark (ie White House or Senate ) would be rebuilt as is so should the Twin Towers.

I visited N.Y. and ground zero shortly after the tragedy. My gut instinct is as the rest, of course go ahead and rebuild as they were, although, recently I have started to imagine how hopeless all of those victims in the towers must have felt as they realized their fate was at hand. whether due to their position in the towers or, they Made the ultimate leap of faith, that God would carry them home, the heighth of those buildings made it impossible to survive. I pray this is what they would want

I'm in the Navy. I'm in the military to prevent attacks like this from ever happening again. Please rebuild the towers... but even higher if possible. Don't let the terrorists win.

I believe that building the towners once again would show our enemies that we are not afraid. That even though they tried to inflict pain and cause chaos. They infact brought our nation even closer and by building those towers again we would symbolize this. So please build the towers once again and show those cowards that even though we may get hit in the gut, we'll rise and fight with even greater strength.

I have visited New York several times since 9/11 and have gone to the site of the tragedy. The New York City skyline was symbolic to me of all this country could achieve. Replacing the twin towers with any other type or style of buildings is akin to finding a perfectly good second wife after your beloved wife has passed on. Good, but never the same. Please rebuild the towers.

The twin towers were iconic and the losses, as well as their physical loss from our skyline in such a horrific way will never be forgotten. The ultimate symbol of the strength and commitment of New Yorkers and the larger community would be to raise a new set of towers on the same site. Perhaps they should be distinctly different and certainly they should include a memorial. Just think of the potent meaning of the word "rebuild"!

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible.
