REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

Every barbarian act of terror and kidnapping **must be responded to with the same reply; you get nothing, you win nothing, you change nothing.** To replace what has been destroyed is first and foremost **not a gesture, it is the reaffirmation of who we are** as a people.

Sheila A Manis All Other Americans 5/27/2006

The WTC must come back as before. Americans have to make this happen. The WTC was a world treasure. Who has not been blown away by the view from the observation deck, or Windows of the World at night. **The absence of them from the skyline, to me, says..."you have won" to the terrorists.**

It would be **nothing short of a sign of weakness** to not rebuild the twin towers to either there same greatness or even better. The current idea that makes this new tower higher then the orignal is ridiculous. They only reason it would be higher is because of the stupid spire. How about building them back to original height then adding a spire.

Alice Harwood All Other Americans 5/27/2006

New York is the greatest city of the greatest country in the world. Rebuild it just the way it was and **show the terrorists that we are as strong as ever.**

Phil McKnight All Other Americans 5/27/2006

It is LONG OVERDUE to rebuild the towers. We have already shown the world just how weak and indecisive we have become. **Get off your ass New York, and start building!**

Rebuilding the Twin Towers should have been a foregone conclusion. The Pentagon was also attacked on 9/11; however, nobody suggested turning the collapsed section of the Pentagon into a garden/park/waterfall. Instead, it was rebuilt and ready for occupancy within a year of the attacks. The Twin Towers, like the Pentagon, were symbols of America (which is why they were attacked); as such icons, **to build anything less in their place would be a victory for those who knocked them down...**

Knowing people who have lost their lives on 911, I can begin to heal once the towers are rebuilt. I don't care about the design **as long as there are 2 and they are at least the same height if not taller.**

Andrew Di Schino Metro New Yorkers 5/26/2006

For me, the WTC **symbolized many things**, among them **the strength and viability of this city and of this country, no matter what the odds.** They were an unmistakeable part of the Manhattan skyline and they should be put back on opposite footprints. **Remember those lost by building the WTC the same but better, not by reducing it.**WTC IN OUR HEARTS AND MINDS! LETS PUT THE REAL DEAL BACK WHERE IT BELONGS! MAY THE TOWERS RISE AGAIN, AND GOD BLESS AMERICA!

We've rebuilt the Pentagon, and **we would have rebuilt the Empire State Building or the Statue of Liberty**, so we must rebuild the Twin Towers!

Rebuild the World Trade Center exactly as they were. Say no to the freedom Tower. That is wrong. It shows that we are cowards. Don't let them build a trophy for those terrorists. Build the Twin Towers as they were and a memorial next to it. Do the right thing. I would work there anyday if they rebuilt them because I'd feel much much safer.

I strongly support the rebuilding of the original WTC (or a taller variant thereof) instead of the shameful capitulation embodied by and the political

By rebuilding the Twin Towers, it is like shoving a fist in the air, saying to the the rest of the world, pooh on you, you can't beat us , or hold us down – we are invincible, we are The U.S.A. the Red, White and Blue!!!!

I was a direct witness to this horror and still today the image of the towers coming down, reminds me of the horrible feeling in my heart at that moment. **I felt powerless, without answers, without leaders, and still feel that way.** As New Yorkers we will never heal if we don't rebuild what was part of us, part of our proud city. Our leaders mention the word rebuild, but what they are doing is changing, not rebuilding. I use to love to drive around the B.Q.E. under Brooklyn Heights and enjoy that view. REBUILD.

 **Andrew Wiesenberg** All Other Americans 5/26/2006

Cut the red tape, get moving and rebuild. 7 wtc is completed bigger and safer and they cannot get their heads out of the sand to rebuild 1 & 2 wtc. **Nobody wants a Freedom tower, people want our towers back!**

 **Christopher London** Metro New Yorkers 5/26/2006

The rebuilding of the Twin Towers is a moral imperative, perhaps even more so than their initial construction. I am New Yorker by birth, a former downtown resident but still work downtown. A civilized and forward moving society does not cower in the face of challenge but instead rebuilds in a bigger, better and stronger fashion. **That would be the greatest tribute and honor to those who died on 9/11, those who built this great city and a lesson for generations to come.**

I was at work on the day of the attack, working very close to downtown Cleveland, Oh, scared to death as a lot of employees were. I have a nephew in the Navy, was really concerned for him. The Twin Towers have meaning for so many people, besides the fact that so many lives were lost. I think it is a great idea to rebuild.... It shows perserverance on our part as citizens of The United States of America.... We are ONE and Will Always Be..... God Bless America!!!!

We need to get this project up and running,if not THEY have won!

machinations evident in the current "Freedom Tower" design. **I travel widely across the US, and when the topic arises, I have never heard a single person indicate a preference for any option other than rebuilding the WTC.** Any other city on Earth would have had such symbolic and iconic structures rebuilt for a multitude of reasons, while in NY the public will is derided.

 **Alex Kiser** All Other Americans 5/24/2006

Over time the towers became beautiful, and I miss them each time the city invites me to look at her skyline again. The original twin towers that were unveiled in the 1960's went up with little public input and participation. I would hate to see the same thing happen twice.

I believe that either building back the Towers or building something else will work because New York City derives its power from the people, not from the buildings. I support the powerful people in that city and the surrounding areas and THEIR decision. What do they want? If it is to rebuild the Twin Towers then let's GET IT DONE!!!
