The world was robbed of the 21st-century Twin Towers most of us always wanted.

to replace the Twin Towers and failed.

Nothing would give me more pleasure than to rebuild the towers exactly as they were and to show the world and the terrorists that no matter what they do they cannot destroy us. The more they attack us the harder we will come back.

i was in newyork this year (aug) and i was really missing the two great gaints that used to be standing up as a solder and which was well known by any one in any country.It was struck by terror and in reply i think we have to rebuild to shows them how weak they are and how united we are (rest of the non terror world). this is a great opportunity to express our support.

Forget about this freedom tower or the reflection puddles, let's rebuild them, bring the skyline back the way it was meant to be. Take the first floor of each tower and have an awesome memorial set up. Not building these towers leaves us defeated. These towers where often looked at as two ugly square bldgs. but thier beauty was not fully appreciated until they were gone. Please bring them back as they where before only strongly, and we as a country will be stronger for that. Thank You, God Bless.

In my opinion if New York does not rebuild the towers the terrorist have won this battle. I think the towers should be built back better and stronger as a memorial to the people who died there on September 11.

I believe that by not rebuilding the Twin Towers we will make a very bad mistake. We will be saying that the terrorists have won we rebuilt the Pentagon. After the White House was burned down after the 1812 war it was rebuilt. Why not the Twin Towers?

The politicians of today are not going to pay any attention to what the people want, they are going to do what they want to do about all things except at election time, and I am speaking about both sides of the isle.

It should never have been an option otherwise. And they should have been rebuilt in record time.

The way you discourage graffiti is to have it removed in the shortest amount of time possible!

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
