

WHAT THE PEOPLE WANT WHAT NEW YORK NEEDS WHAT AMERICA DESERVES

"Dream No Small Dreams"

THE ALLIANCE THE PETITION THE COMMENTS THE INDEX THE COALITION THE JOURNAL THE INSTITUTE

Rebuilding the Twin Towers should have been a foregone conclusion... nobody suggested turning the collapsed section of the Pentagon into a garden/park/waterfall.

— Tom Insley / Citizens of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

I was born nearly 7 years after 9/11, in England, and I have to say that I have never wanted to visit anywhere as much as the Twin Towers. Perhaps it is my taste in architecture, the sheer size of these buildings attracts me to them straight through my computer screen. To dine at the Windows on the World, sat eating 107 stories above the ground, looking out over Manhattan. I guess that feeling is one very hard to come by without the buildings to feel it in.

Think about what it symbolised! Not only international trade and more peaceful times-for many people, on a personal level, it represented those more simple days, pre-2008, before social media made so many people miserable.

Rebuild them. Make the NYC skyline iconic again.

Gabriella Kazianis * All Other Americans 3/17/2025

Julian Novoa * All Other Americans 2/19/2025

I hope we can restore our beautiful skyline we once had. Us Americans deserve it, we need to show that if someone destroys something on our soil we'll build it back bigger and better. My friend lost his dad who worked on the 63rd floor of the north tower and he even told me if the twin towers were back he would feel like it would give him the proper closure to his dad's death. Because if we rebuild that means we won. I would give my best to have this become a reality, if this plan goes forward, you'll see me helping on the construction site to bring back this American dream. God Bless, stand strong USA!!!

Felipe Andrade Oliveira * Citizens of Other Nations 2/17/2025

Eu sinceramente gostaria de ver as torres gêmeas em pé como eram antes, mas claro, com uma estrutura muito melhor, bem reforçada e com muito mais segurança. Quando os atentados aconteceram, eu era uma criança, e tinha apenas 5 para 6 anos...

Seria a melhor coisa para o horizonte nova iorquino ter as torres gêmeas de novo como parte da cidade... Se eu fosse bilionário, faria o impossível para conseguir reconstruí-las junto ao molde original do complexo... As homenagens seriam parte essencial e primordial no projeto... Ainda hoje, penso em como o ser humano pode ser imbecil à ponto de destruir prédios da maneira que aconteceu, por um fanatismo religioso totalmente distorcido e errado... Quero as torres gêmeas de volta em NYC!

Translation: I would sincerely like to see the Twin Towers standing as they were before, but of course,

Max Dolski All Other NY & NJ Residents 5/19/2024

Matthew Lopez * All Other NY & NJ Residents 5/15/2024

Like the Sphere and the Survivor Tree, the Twin Towers faced indescribable odds against them and came out on top in February 1993. I believe the Towers should be rebuilt. It would be a great display of resilience and make New York feel a little more like New York again.

Julia Matanovic * All Other NY & NJ Residents 5/7/2024

I think it would be cool.

Ben Jazz * All Other Americans 5/5/2024

Rising again taller then before. Unique concept to honor the legacy of the OG towers.

Keith Allison * All Other Americans 4/28/2024

We MUST rebuild the iconic and B-E-A-Utiful Twin Towers-taller than before 9/11!! A very appropriate symbol of American Pride and civility!! That would be really truly American!!! :)

James Charles * All Other Americans 4/23/2024

I Was Born 3 Years After The Disaster. I Just Like Many Others Didn't Have The Chance To See The Twin Towers Stand Before Us. We Must Rebuild Them As They Were Before, Not Just To Repair The New York Skyline, But To Repair What America Stands For. If We Don't Rebuild And Just Leave A Empty Space, Then The Enemy Wins. We Must Rebuild The Towers The Same As Before, But Stronger To Prevent The Disaster From Happening Again. America Doesn't Back Down, America Doesn't Lose, We Rebuild And Come Back Stronger Than Ever. We Owe It To Every Single Police Officer, Firefighter, Paramedic, Victim and Families Who Mourn To Bring Back The Towers. We Cannot Let Ground Zero Be A Grave, We Must Let It Be A Sign Of Strength By Rebuilding The Towers In Honor Of Those We Lost.

Richard Johnson * All Other Americans 3/17/2024

I may have been born 8 years after these beautiful creations came crashing down, ripping apart so many peoples lives but I still feel a special connection to them.

with a much better structure, much reinforced and with much more security. When the attacks happened, I was a child, and I was only 5 or 6 years old...

It would be the best thing for the New York skyline to have the Twin Towers as part of the city again... If I were a billionaire, I would do everything possible to rebuild them along the original lines of the complex... The tributes would be an essential and fundamental part of the project... Even today, I think about how human beings can be so stupid as to destroy buildings the way they did, out of a totally distorted and wrong religious fanaticism... I want the Twin Towers back in NYC!

The Twin Towers were more than just ordinary work skyscrapers, they were symbols. Symbols of American economic power, globalization, and prosperity. But, the day they were destroyed by terrorists, that was all gone. There is still hope though. Hope that we can rebuild the towers once again, and take back what the terrorists took from us. Thousands upon thousands would agree.

From supporter,
Liam Gies

While I am Australian, the twin towers were America. They were so iconic and that is what made the NY skyline what it is.

Their reconstruction would be so symbolic as its a slap in the face towards terrorists and a general "You may knock us down but we will come back stronger".

Please rebuild!

 **Amos (Withheld)** Citizens of Other Nations 9/17/2024

 **Taber Wood** All Other Americans 9/12/2024

Rebuilding the Twin Towers is a powerful symbol of our nation's strength, resilience, and unwavering resolve in the face of terror. The attacks of 9/11 were meant to instill fear and weaken our spirit, but by restoring these iconic towers, we send a clear message to the world: America does not back down. We honor the lives lost by standing tall and showing that we will not be defined by destruction, but by our ability to rebuild, rise, and persevere. This is not just about rebuilding a structure—it's about reaffirming our national identity, strength, and commitment to freedom.

 **Eric Casey *** All Other Americans 8/20/2024
National landmarks should not disappear!

 **Ottavio Cassone** Citizens of Other Nations 6/28/2024

Ciao mi chiamo Ottavio ho 18 anni e vengo dall'Italia, sono sempre stato innamorato delle torri del world trader center sin da bambino (anche se non ho potuto mai vederle),e nel pensare che quei magnifici complessi architetonici non ci sarebbero stati più, mi sale una grande tristezza interiore sia per ciò che è successo ma anche nel sapere di non poter mai vedere quelle fantastiche torri.

The original World Trade Center has something that the current site does not possess. To me it is the pure symbol that is shown through it. The towers projected the American dream, the strength in our peoples freedoms.

To rebuild what we lost is not an insult to those who died, but a way to remember. To show that the terrorists may have struck us but we have come back in spite of the murder of our friends, family, co workers, and more.

 **Ahmed Almani** Citizens of Other Nations 1/10/2024

Although I have never been to New York, let alone ground zero, I still see pictures of these buildings and I imagine the huge scale of them, looming on the horizon. I want that to be reality.

 **Marco Suarez** All Other NY & NJ Residents 1/6/2024

I believe the towers should be rebuilt because of the history and symbolism they held for new york and the country as a whole. The timing is right, its been over 20 years and I don't believe the buildings will trigger trauma responses from victims (only if they are NOT rebuilt on the original site). And while I wish they could've been rebuilt on the original site, it wouldn't be feasible considering most of the new complex is finished. As long as the towers are in new york city, I'm fine with whatever spot they'd be rebuilt. I was born in 2000 my mom worked in the financial district until 2002 so I grew seeing ground zero and being so intrigued by the missing towers. I know I'm not the only one with this relationship the towers, and new yorkers deserve a chance to see them again in person.

 **Aaron Smith *** All Other Americans 12/4/2023

Here are some reasons why the Twin Towers should be rebuilt:

The Twin Towers were an iconic symbol of New York City and the United States. Rebuilding them would be a powerful statement of resilience and strength in the face of adversity.

The new World Trade Center complex, which replaced the Twin Towers, has been criticized for its design and lack of character. Rebuilding the Twin Towers would restore the skyline to its former glory and provide a sense of continuity with the past.

 **James Pete *** All Other Americans 12/2/2023

I believe that new Twin Towers should be built. Incorporated in some way into the new World Trade Center complex. The original Twin Towers II proposal seems to be out of the question. But there is still time to reconstruct what is so desperately missing from the Lowrr Manhattan/Financial District skyline.i like many others was not around to witness the original World Trade Center complex in all of its glory prior to September 11th, 2001. I think a new set of Twin Towers would benefit New York and the United States as a whole. The gap would be refilled once more and the memorial pools would continue to act as a reminder of what was lost that day. I sincerely hope some day this mission is somehow accomplished.

 **Andrew Smith** All Other Americans 11/27/2023

Phoenix North and Phoenix South. That is all. Nothing less will suffice, on multiple fronts. Make it affordable apartments and space for non office related businesses, like an arcade, indoor airsoft arena, etc. make the impact floors a museum and memorial place. So much good can come from them. We just need 7 billion dollars to make it happen...

 **jamie lee fiarbrother** Citizens of Other Nations 11/19/2023

there must be a no hideing from the fact of what did happen here, & there allways has to be a mamorial for the bombing & 9/11 , but at the same time, the towers should & could be rebuilt, bigger stronger & safer then ever before! i look forward to that happening! & i no many others feel the same

 **Brendan Schmidt** Citizens of Other Nations 11/14/2023

They absolutely need to be rebuilt.

 **Michael Koury** All Other Americans 11/4/2023

 **Davyn Roberts** Citizens of Other Nations 10/29/2023

Desidero fortemente la ricostruzione di quelle torri, anche per dare un segno di rinascita e di riscatto e nel trasmettere che il terrorismo non ci ha fatto niente, e poi anche perché loro richiamano un periodo d'oro un po' per tutti.

Ovviamente sempre se questo non dia un fastidio generale a chi ha purtroppo perso dei cari durante l'attentato.

PS sarebbe memorabile.

Translation: Hi, my name is Ottavio, I'm 18 years old and I come from Italy. I've always been in love with the World Trade Center towers since I was a child (even though I never got to see them), and thinking that those magnificent architectural complexes would no longer exist makes me feel a great inner sadness both for what happened but also for knowing that I will never be able to see those fantastic towers.

I strongly desire the reconstruction of those towers, also to give a sign of rebirth and redemption and to convey that terrorism has done nothing to us, and then also because they recall a golden period for everyone.

Obviously, as long as this does not cause general annoyance to those who unfortunately lost loved ones during the attack.

PS it would be memorable.

 **Mark Conway *** Citizens of Other Nations 6/17/2024

I'm from the UK and think it's a real shame the towers haven't been rebuilt, as nothing would have shown the world terrorism will not prevail more. The New York skyline simply isn't the same without these iconic behemoths. I'd love to see them rebuilt bigger and better, but with the same steel framed architectural style. Nothing would commemorate all those lost on 9/11 better than rebuilding the twin towers. New York authorities, please u-turn and give the people what they want.

 **Davide Cannavo' *** Citizens of Other Nations 6/5/2024

the towers and new york deserve to go back to the way they were before

 **Jeremy Kroczyński** Citizens of Other Nations 5/20/2024

Born shortly before 9/11, the Twin Towers still have always been one of the most iconic symbols of the United States to me on par with the Statue of Liberty and the White House. Their design is unique, recognizable all around the world and stand just all in all for everything american. Bringing them back would be the only right thing.

The twin towers.. as a Canadian I was never able to see the towers I wasn't born in time but I will always want to it's different just looking at a photo from now and 2000 it's just not the same we need to build these towers I HAVE FULL SUPPORT build these towers take it to the limit and make it the tallest building in the world and make it a structurally strong and call the towers WTC 0

 **Jonas P** Citizens of Other Nations 10/23/2023

I was born a few months after the attacks, am neither a new yorker nor an american in general, but I loved the towers ever since I learned about them. From comparing photos of pre-9/11 New York to photos of the city today, I always felt, that something's missing, that New York has a whole other vibe to it. The Twin Towers just have to return, to finally make the Skyline complete and to show the terrorists a middle finger.

 **Gyanesh Pathak** Citizens of Other Nations 9/27/2023

I believe that the current design is "not good" (I would say something else but I won't). I was born in 2010, so I never got to see the twin towers myself. But just looking at the pictures made me realise how great these behemoths were. Considering a large percentage of 9/11 affected families wanted the twin towers to be rebuilt, the current design is not a great one.

Never Forget

 **Ben Lukes** Construction Workers & Families 9/25/2023

 **William Parnitzke *** All Other Americans 9/24/2023

I was born in 2009, 8 years after the attacks. So, obviously, I myself didn't live a life with the Twin Towers or live through the September 11th Attacks. But even so, I have always honored the day by watching documentaries and annually constructing my micro Twin Towers/WTC complex in Lego bricks. I always find that I really do love the towers that aren't there any longer. I feel a deep anger towards the terrorists who not only took the lives of nearly 3,000 American citizens, but

 **Carlo Zambon** Citizens of Other Nations 8/31/2023

Be strong: rebuild the Twin Towers to be even more beautiful than before!

 **Ross Muir** Metro New Yorkers 8/7/2023

As an Architect and engineer practicing in New York city for more than 37 years I have grown to know that the Twins were as modernism should be. That's to say the most efficient buildings ever built. If the Towers were there today they would undoubtedly be considered for renovation into Eco-Hospitals. At 2 acres yielding 220 that's a must. So the towers will be back and it will start with smaller versions. Please see my gofundme and click the read more for details. Feel free to donate if you wish:

https://www.gofundme.com/f/twin-towers-forever?utm_campaign=p_cf+share-flow-1&utm_medium=copy_link&utm_source=customer

 **Mathias Escofier** Citizens of Other Nations 7/14/2023

I think that rebuilding the Twin Towers would be a great symbol of hope, power and resilience.
