The ongoing sight of a world landmark wiped off the face of the earth built.**

— Dan Taylor // Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

to replace the Twin Towers and failed.

I don't think we as Americans should let yellow-bellied impetuous terrorists have the upper hand in this tragedy.

Let us show our strength by unification into this venture by signing this proposal as a show of strength and defiance to coward

Please put the towers new and improved back where they belong!!!!

**Tommy Kirk** All Other Americans 4/20/2006

It's about time that we as a nation stood up and let the world, friend or foe know we will not apologize to people who hate our country and way of life and religion. This is the best way to remember our fallen citizens, they deserve this!

With all respect to the people who have lost someone. The politicians are only using greed and their own agenda's rebuilding ground zero. The towers going up are the only way to stand up to these terrorists.

my soulmate, the man i knew i would marry some day was killed in iraq serving our country after 4 of his close friends were killed in the towers. his name was dimitri gaviel, and his sister forwarded this mail to me. he was a securities analyst on wall street—a genius—and joined the marines to contribute something in honor of those he held so dearly. his death left ALL of those that knew him with a hole in their heart as big as the towers have left. please, do whatever you can to fill that void, to honor our country and the freedom that dimmy fought and died for.

i signed it, and good luck to you and your cause. i hope it works.

**This is not about office space or urban planning. This is about taking a beating and refusing to go down.** Surrounded by the Nazis at Bastonge, facing imminent death, General McAuliffe simply replied "nuts." That's the American spirit we need here.

**Michael Keller** All Other NY & NJ Residents 4/20/2006

From day 1 I knew the best response would be to rebuild the towers, so that it would be clear that the terrorists could not change us.

**Joyce Otto** All Other Americans 4/20/2006

It makes me sick that it has taken this long to rebuild the towers. Rebuild the towers the same. What greater monument to those that died there.

**Nicole Bonelli** All Other NY & NJ Residents 4/20/2006

Rebuild our towers!

**Jim Bender** All Other Americans 4/20/2006

Rebuild them to look like the original WTC; but better, taller – a more fitting response and memorial. God bless America.

**Jim Copeland** Metro New Yorkers 4/20/2006

**Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.**

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

\* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
