## REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

Its time to make the skyline look correct again. The day the towers fell, a part of my life was changed forever. I know it won't change that, but, it will make things look more like they should

Anything other than the twin towers is a nothing more than a reminder of what was once there and is no longer. Rebuilding the towers is meant to show that we will stand up after we get knocked down – that in itself is a memorial all on it's own.

As we united on that awful day, we must unite to remove all obstacles that stand in objection to putting those marvelous structures back where they stood.

Why re-invent the wheel? No other buildings in this world would have withstood the impacts of the planes, let alone stand for 45 minutes while the burned. The design saved way more lives than they took. And we can improve upon the original designs.

**John Maimone** All Other NY & NJ Residents 4/19/2006  
Rebuild the towers as they were but make them one story taller.

**Greg Martin** All Other Americans 4/19/2006  
Cowards would not replace destroyed property with identical buildings. No real American is a coward. See, they who more than self their country loved, ran INTO the burning buildings. Will New Yorkers now run away from the towers?

The original towers should be rebuilt stronger and even taller than before.

I was raised in nj...grew up viewing the majesty of new york city from the top of the towers most weekends or the skyline from the cliffs. No longer a majestic site for us to gaze...the void just brings back the sadness of that horrific day...

Connecticut should be listed with NY and NJ. The towers could be seen from our beaches.

<div><div><div></div><div></div></div><div>Even five years after the attack you can look at any photo, painting, drawing, etc. of the New York skyline — What do you see? The Twin Towers. I refuse to believe that we would allow our skyline to be altered permanently and then try to repair it with a shadow (Freedom Tower) of the symbolic &amp; powerful buildings that once defined our city. **Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.**

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

\* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
