**REBUILD THE TWIN TOWERS!** Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

No political comment here. It's still a pig with lipstick. You can dress these buildings up, make them shiny and new, but we will not be the Americans we were until those two towers shine again. And we will be better and stronger seeing that skyline. Why don't you people get it? We don't want a shabby substitute or a shiny one. We want what they took away.

Worked and lived in Lower Manhattan in 1989 and would like to see the towers restored using a similar design only taller.

i have always believed (even before any of the 'conspiracy theories' began) that we/americans should replace what was taken from us. not only an american icon, but strenght it sybolizes.

we can replace them and show the world that 'you can knock us down, but we will get up'.

with these towers being replaced using new and better technicology, a new courage and faith will be restored.

As native New Yorker, who is now in DC I wants to see the WTC re-erected. Any other building oreiface represents a win for OBL and his members. Everytime there is a skyline shot of NYC without the WTC they win. Good luck

New York will never be the same in beauty and spirit if we do not re-build the Towers. I was there that horrible day, seeing them fall but my heart would rejoice at seeing them rise in the sky once again.

There is only one way to restore America! If the towers were anywhere else in the United States, there would be no issue. But here in New York City where it takes 20 years to develop Columbus Circle or Times Square, what do you expect? Restore WTC!!	PUT EM BACK!!!

	I lost my friend Gabby (106th floor). Rebuilding the towers so we can honor those innocent lives lost on 9/11, but also to help those of us that are still here still living with the memory of it all, still living with the loss. Rebuild the towers.

**Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.**

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

\* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
