REBUILD THE TWIN TOWERS! Nothing has rewarded the jihadists more than the ongoing sight of a world landmark wiped off the face of the earth.

— Dan Taylor / Citizen of Other Nations

The world was robbed of the 21st-century Twin Towers most of us always wanted.

Click above for more comments that rebuke the cynicism that tried to replace the Twin Towers and failed.

My idea for a memorial, rebuild the towers to the original if not larger size. And on the floors where the planes hit have it compleatly empty except for the names of all who have died on the walls simular to the vietnam memorial.

I just don't see any alternative to rebuilding the WTC as it was before—with a memorial, somewhere, natch.

peter rose Metro New Yorkers 8/23/2006
2 twin towers built...not exactly the same...but with the famous "shape" they once had.

Bostjan Pecnik Citizens of Other Nations 8/23/2006
They were the most beautiful buildings in the world. I miss NY skyline with twins, twice as tall as any other building around. The towers have to be rebuilt!

Replacing what they took will show that they can never take what we have.

I want the towers rebuilt to their former splendor. They were towers of hope and happiness; and of freedom and pride. I do not want the Freedom Tower built on the grave site of so many who were lost just because of a resolvement that people want only for money. God bless the Twin Towers and everyone who perished on September 11, 2001.

Charles Hall All Other Americans 8/20/2006
We must not fear to be great. God bless America.

To our elected governors and politicians, it is your duty to have these great monuments rebuilt to their original state. You owe this to the families of the fallen and to our great city.

Sincerely,
Dallas Moore

Even if the Towers themselves and lower Manhattan meant nothing to me personally (they did), I'd see rebuilding as a moral duty.

As a frequent visitor over the years and former resident of Hoboken, I'd love to return someday to a restored lower Manhattan that is symbolic of our (yet to be secured) triumph over global Islamist terror.

When we act and build smaller buildings as a result of a threat of terror, terrorism is working. If we alter in any way what we say or do, as a result of fear of terrorists, we have lost and they have won. This country is a great nation, and we need to remember

Trash the Lauder/Pataki/Libeskind monstrosity of patronage. A window to history is open, rebuild the Towers, show the American "can do" spirit, emerge from this "fear" and "impotence" of terror. Brave men & women gave their lives trying to save these buildings. A well connected troll does them a disservice given authority above his talent level to replace what people died tried to save, with a hypodermic needle.

Build them the same as before, but stronger and with current technology.

do us harm. I hope a statesman rises out of this mess and leads our spineless politicians to be strong and follow the will of the people, and never bow to terror.Never forget the lost!

To all those who survived the attack of September 11, 2001, i give all my faith. We shall trust the new ability to rebuilt the WTC. Not to live the pain over again, but to realize that we still need the World Trade Center.

We need to rebuild the towers only each tower should be 1 floor higher, and those floors should be the memorial along with a monument next to the new towers.

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
