I Love the Twin Towers! The WTC site is nothing without them. Get everyone to do the Twin Towers 2 design by ken gardner im sure Larry silverstein would go for it! But yes Were America and we will stand tall for what we believe in which is bigger safer stronger Twin Towers!

Vinny Jons Lwr. Manhattan Residents & Workers 7/6/2008
Please Rebuild!! I wish to wake up and see those Towers outside my window again! Twin Towers II by Kenneth Gardner is the BEST!

The World Trade Center meant and still means a lot to me, but i would have loved to get a chance to go shopping in there and also going to the observation deck and and also going to windows on the world and eating a nice quality meal and it looked awesome in ny skyline and ground zero and it meant world trade and peace and they were a nice simple design and they brought a lot of business in nyc

Symbolism, in this case, has more value than we give it credit.

If you look at the design of the tower of freedom it's actually not that bad. That being said, there should be two of them!! The smaller one should be 1776 ft tall, and the bigger one including the antenna should be some 2000 feet tall... I would say... The twin towers looked like glorious guardians of Manhattan, like the colossal guardians at Abu Simbel... **the new design looks exactly the same as other major cities' skyline... how sad!!!**

The WTC towers were one of the most awe inspiring achievements of modern day engineering the world has ever seen. As such it is unsurprising that they were targeted by the cowards of 9/11 in a very symbolic message meant to say that even our greatest minds were inadequate to defeat them and send a significant blow to the morale of the country. It is only continuing to aid the enemy by not rebuilding them as **it can be said they see it as an acceptance of their message.** Now is the time to do it.

The Twin Towers meant and still mean alot to me. It would be irresponsible not to rebuild them. I'd even go for a job in them if they put them back.

Johnny Lorin All Other Americans 6/23/2008
The Twin Towers were AMAZING! The battered skyline is not acceptable. The politicians need to listen to us. I saw Ken Gardner's plan and it is the proper way to honor those who were lost. and **in my opinion nothing looked cooler than those Twin Towers in the Skyline at Night!**

John Regan All Other Americans 6/23/2008

Cast down... shackled... dark, dank.
Alone...yearning, for a glimmer of light.
Vivid images racing, tormenting.
Shattered dreams of freedom,
suffering, hopeless despair;

Liberty's light, beckons the patriots spirit.
If, only to hold...a single ray.
Grappling for life...the light of freedom.
Vanquishing the bonds of captivity;

Bursting forth, grasping the light... dreams.
Never too relinquish, guarded vigilantly.
Basking in freedoms light...
Your life, shackles,

We should do it, but will we? Can we? Are we Americans? Or are we done? Is this how it ends? The terrorists win...WTF!!!!!!

 **Edward Henson *** All Other Americans 7/2/2008

The World Trade Center was a great symbol of capitalism. What better to show terrorists that if you bomb it we shall rebuild it. Does not matter what they do, we will overcome that is who we are, that is our moral character. the old English phrase keep a stiff upper comes to mind anything but rebuilding the Twin Towers would be admitting defeat.
LONG LIVE THE AMERICAN DREAM.

The twin towers were obviously one of the most, if not the most, iconic features of New York City. They were the fusion of beauty, prestige, and simplicity. One great way to send a statement of American resolve against the fear and plight of terrorism would be to rebuild the very thing the terrorists took away. To rebuild the towers would not only restore a powerful symbol of New York, but send a clear message that our people and our country can and will rebuild anything our enemies destroy.

 **Jimmy Vandalis** All Other Americans 7/2/2008

I Loved the Twin Towers. They NEED to be rebuilt the current situation is obviously looking up for us. God be with ya'll in getting this done. Plus I'll need a job soon and what a better place to work then the amazing TT2?

 **Cambryn Middleton** All Other Americans 7/1/2008

I miss home. Now that this occurred makes me miss it even more than before. I think it is in the best favor of those direct affected families to see a bigger better NEW YORK!!!

To hell with the absurd Fear Tower! If we were still a serious country the Twin Towers would be up at 150 STORIES!
Sadly, we are no longer a serious country.

Send a message to the world that they can not change anything no matter what they do.

 **Daniel Ripley** Citizens of Other Nations 6/30/2008

Greetings from Canada! Im signing this for many reasons. Rebuilding the WTC's Twin Towers bigger and stronger is just a very powerful message and definitely something to remember. The original WTC served New York in many ways from well World Trade to tourism and those who just like to gaze up at them. One more thing is that the Freedom Tower is just not the same especially when replacing the most famous twinned structures in the world. If they're built il bring a Canadian Flag to the WTC if I go.

 **Bridget Quinn** All Other Americans 6/30/2008

Bring them back, better than ever.

 **Christian Russell *** All Other Americans 6/30/2008

The Twin Towers meant so much to me as an American citizen. After looking closely at the other WTC plan that has been proposed, I feel there is no comparison. This plan satisfies so many more of the core elements - the emotional, financial, historical, and visual elements would all remain intact, but with

The only clear message to our enemies is to **REBUILD the towers and ADD about 10 floors to them**. That is a clear "in your face" message that Americans understand.

 **Kareem Aynaou *** Citizens of Other Nations 6/23/2008

What can mankind say that has not been said, but rebuilding the twin towers is a dream and a wish of every peace and freedom loving human! Please America give us back history, it was a dream of mine to visit the twin towers so i still want to do so cause the towers will never die! I am so not over this. Hopefully New-York will become stronger then ever and I'am sure it will do so.
Peace and love to all the New-York citizens.

 **Adam Mueller *** Our Armed Forces & Families 6/23/2008

The single greatest monument to the victims of that tragic day would be the rebuilding of the twin towers. Bigger, better and stronger. The terrorists try to destroy our way of life. Lets show them that they can't do that. If they knock us down, we'll get right back up.Oorah!

 **John Withrow** All Other Americans 6/22/2008

Let's show the savages that Man's civilization goes on. Rebuild the towers.

 **John Murphy** All Other Americans 6/22/2008

Having lived in New York from over 20 years and seeing the Twin Towers as I commuted around the city everyday, I am finding it totally unfathomable that we Americans would allow terrorists to destroy our country without rebuilding it at least the same if not larger.

 **Rob Myers** All Other Americans 6/20/2008

Our country is going down the drain lately. The economy is going, gas prices are killing us, and there's more political corruption than ever. We need the towers to be rebuilt to symbolize that there is hope for our country. That freedom still reigns.

 **Dale Bachu *** 9/11 Survivors & Families 6/19/2008

My wife was in the towers when the first plane struck and thankfully made it out. We both feel very strongly about the towers being rebuilt, anything less would be a victory for 19 individuals and would basically be a 1700 ft white flag muddying our once beautiful skyline.

 **Jean-Bertrand Casseus** All Other Americans 6/17/2008

The World Trade Center should be built in the original image and updated to beyond 21st Century Building Standards with the structural design to survive any type of disaster as was the original towers designed. (The original structure was designed to survive a collision of a 747.)

We must send a message to the World that we are united in our vision for World Trade and Peace as the original towers symbolized. The new towers should be as tall or taller than the original towers to show our resolve.

We would love to support the efforts put forth by this great organization to rebuild the Twin Towers. We would love to pass out cards or brochures to help.

We are based in Phoenix, AZ and have our own grassroots efforts to try and help those who serve our country. We have rebuilt a Fire Truck in remembrance of 911. <http://www.fireupfreedom.com>. We let the communities know we have not forgotten about those who have suffered.

a positive eye on the future. Bravo. How else can I help?

 **Sander Butterman *** Citizens of Other Nations 6/28/2008

Just build the originals again. It would be taking away the famous face of the city. And to the terrorists it would be the best signal. You can't get us small, we just rebuild them.

Please visit our website and let us know if we can help.

I'm Canadian but I lived in the United States for 8 years before returning home two years ago. I lived in New Hampshire when the towers fell. I think it's a great idea to rebuild them, to show that Americans are not afraid. But I do think it might be a little creepy, and that no one would want to work there.

TTA Note: Happily, many more people would be inspired and thrilled to have the chance...

 **Sergiu Arsenie** All Other Americans 6/13/2008

It would be phenomenal to see the towers back in their original spot, just as it should be.

Please Note: This petition is meant to provide a forum for this subject alone. It is a petition, not a bulletin board. We will not sanitize controversial remarks if the comments are primarily in support of the petition's purpose. But off-topic remarks are subject to removal on a case-by-case basis to keep the focus where it belongs. Thank you.

Important Mention: Those who read back over the comments will find that from time to time we have highlighted excerpts to help those who only have time to skim a page get a sense of what people are thinking and feeling. We rarely do that now and it was never a methodical effort, but just a window on public opinion regarding this monumentally important issue. The important thing to know is that no comment matters more than any other. Each one is valued and helps make the case that the public was sidelined on something that mattered so much.

TTA Note: Occasionally a current signature will disappear. When that happens it is because someone who has already signed the petition signs a second time and when the second signature is validated the two are automatically merged and appear in the original chronology. If someone leaves a second signature and comment, it automatically overwrites the earlier placement when the validation link is activated. If it isn't activated, or it is made using a different email address, there will be duplicate signatures. When we recognize that someone has signed before, we will delete the earlier entry and, if it was verified, verify the new one, since the clear intention is to make the new comment visible. We may decide to manually include the earlier comment at the end of the current message.

Regarding anonymous signatures: Taking a stand using one's full name is always preferred, but when a name is withheld, the signature and sentiments are still of value. In every case, we have an email address that corresponds with the entry and is kept private.

* Indicates that the signer has not yet activated the validation link, often due to spamblocking software. They are included out of respect for the sincerity of the comments.
